FLASHDRY

ALL PURPOSE

INDUSTRIAL ABSORBENT

5-7X
MORE ABSORBENT
THAN CLAY

All purpose absorbent for hazardous & non-hazardous leaks and spills

Non-carcinogenic, safe to handle, lightweight and reusable, all natural, organic industrial absorbent. Earthsafe FlashDry soaks up spills 5-7 times faster than clay, with no need for a secondary clean up.

FLASHDRY

ALL PURPOSE

INDUSTRIAL ABSORBENT

Key Features:

- ✓ **Cleaner, no mess**
No slippery residue or messy waste – its clean, dust-free and non-abrasive.
- ✓ **Landfill safe**
FlashDry is non-carcinogenic and will not leach out hydrocarbon liquids.
- ✓ **Non-Carcinogenic**
Non-toxic, Crystalline silica free
- ✓ **Faster, no waiting**
Instantly absorbs spills on contact.
- ✓ **80% less downtime**
Reduces clean up time by 80% and renders the spill area safe and non-slippery immediately.

RAPIDLY ABSORBS:

Automotive fluids
Cooking oils & Grease
Beverages & Syrups
Sauces & Salad dressing
Household cleaners
Blood & Bodily fluids
Paint, Chemicals & Resin
Detergents & Softeners

Easy to Use:

Step 1

Surround the spill edges with FlashDry, working towards the middle until completely covered.

Step 2

Sweep the FlashDry back and forth into the spill with a stiff broom until liquid is absorbed*.

Step 3

Sweep into a bin or bag. FlashDry can be reused until the material is fully saturated.

*If needed, apply a little more FlashDry to the area and repeat until all residue is removed.
